Cold LED Light Source

- ★ LED technology with Electronical IRIS
- ★ Color temperature more than 6900°K
- ★ Automatic over temperature protection

"Perfect combination of technology & Ultra Brightness"

Microprocessor based Co2 Insufflator

- ★ MICRO CONTROLLER technology
- ★ Fully automatic electronic digital CO2 Insufflator
- ★ HEATING SYSTEM facility & SIX Digital Displays
- ★ Optical and acoustic alarms for extra patient safety
- ★ Maximum Flow rate is 20/30/45 ltr/min.
- ★ Veress Mode & Trocar Mode

"No fogging, Crystal clear vision"

Next Level Hysteroscopy Technology System

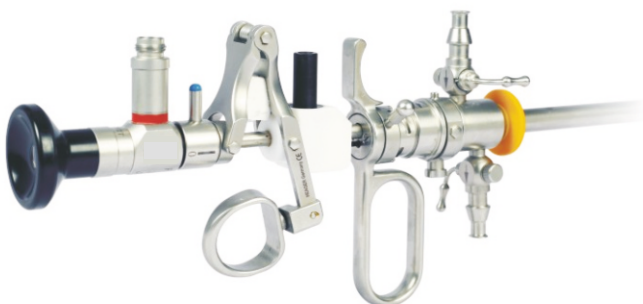

- ★ Micro controller technology with SAPC
- ★ Digital Hystero Pump with fully Automatic function
- ★ Maximum pressure capacity is 400 mm of Hg
- ★ THREE Digital Display for maximum patient safety
- ★ Accessories-Silicon tubing with sensor, power supply cord.

"High visualization & precision during Operative Hysteroscopy"

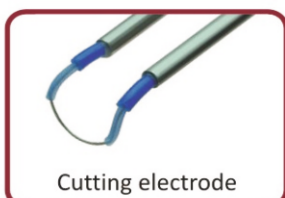

Cystoscopy Sheath

- ★ Cystoscopy Sheath with obturator & telescopic bridge for 4 mm FULL HD Cystoscope

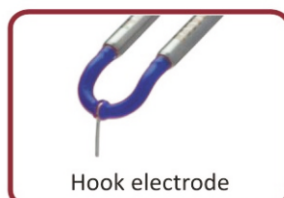

TURP System

- ★ Continuous Flow Outer Sheath 25.5 Fr., Inner Sheath & Deflecting Obturator
- ★ Latest Quality rotatable Passive Working Element
- ★ New Automatic locking mechanism
- ★ Hassle free operation
